

UNEXPECTED & POWERFUL · VISION

My Policy Legacy Worksheet

Zoom all the way out — and then come back to today with more purpose

The Policy Lab · mspolicylab.com · @thepolicylab_

The day-to-day of advocacy — the bills, the hearings, the meetings, the setbacks — can make it impossible to see the larger arc. This worksheet zooms you all the way out so you can come back to today with more clarity about why it matters.

TEN YEARS FROM NOW

What specific policy change do you want to be part of by 2035?

What would Mississippi look like if you succeeded?

Who would benefit most — and would they know your name?

YOUR CONTRIBUTION

What role do you want to have played in that change?

What do you want people in your community to say about your work in 20 years?

CONNECTING LEGACY TO TODAY

What are you doing this session that connects to that 10-year vision?

Is there anything you are spending time on that does NOT connect to that vision? Should you stop?

The one decision you could make today that your future self would thank you for
